

BUSINESS TONE CONSERVATIVE

Further Improvement of Fall Jobbing Trade Indicated.

CROP FORECAST FAVORABLE

WOOL FIRM AND IN SUFFICIENT DEMAND.

New York, Sept. 4.—Bradstreet's tomorrow will say:

Crop developments have been mostly favorable, fall jobbing trade reports indicate further improvement and monetary conditions show less tension. The tone of general business is conservative and the tendency is to eliminate anything in excess of speculation or over-extension from business. Manufacturing industry shows continued activity except in such lines as cotton and silk production, which note the influence of special conditions, and some lines of iron and steel. Evidence of an approaching slackening in the output of anthracite coal, has been seen. Improvement is noted in the car schedule trouble, and gross earnings of railways continue large, but increased cost of operations and heavy improvement limit net receipts.

Failures show only the usual mid-summer volume so far as number is concerned, but average suspensions foot up a larger total of liabilities, particularly of small financial institutions and manufacturers. Collections are still rather backward though some improvement is noted where backward crops have been realized. The wool market is firm, on demand sufficient to cover sales of goods. Lumber is active and firm at the west, but leather is slow and drab at the east where labor conditions are not altogether settled.

Wheat, including flour, exports for the week ending Sept. 3 aggregate 3,229,229 bushels, against 3,055,556 bushels last week, 4,275,230 bushels this week last year; 4,406,064 in 1901 and 3,273,100 bushels in 1900. For nine weeks of the cereal year, since July 1, they aggregate 28,215,215 bushels, against 24,052,596 bushels in 1902; 32,107,507 in 1901, and 27,239,019 in 1900.

Corn exports for the week aggregate 85,741 bushels, against 86,220 bushels last week, 21,186 a year ago, 55,575 bushels in 1901 and 3,161,271 in 1900. For nine weeks of the present cereal year they aggregate 9,141,306 bushels, against 71,355 bushels in 1902, 9,549,949 in 1901 and 31,083,006 in 1900.

Business failures in the United States for the week ending Sept. 3 were 163, against 142 last week, 133 in the like week of 1902, 129 in 1901 and 154 in 1900. In Canada failures for the week number 18, against 25 last week and 14 in the same week a year ago.

Dun's Review.

New York, Sept. 4.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say:

A striking contrast appears when comparison is made with the corresponding week last year in trade. Prices were then trending upwards in many branches of industry, new business was coming forward more rapidly than it had been, and in the security market all records for activity and high prices were being surpassed. Later events have demonstrated that the situation was unhealthy and speculative excesses have been followed by reaction and readjustment. Conservatism was then an exception; it is now the rule. Prospects for steady gains and their maintenance are brighter under the present system. Legitimate business will continue to suffer from speculation, and the high rate for exchange will militate against industrial expansion, but in the long run a larger degree of caution should prove beneficial. Buyers are still coming to the leading markets in great numbers and testify to the sound condition of business at the interior.

Manufacturing plants are busy throughout New England, aside from cotton mills, and there is notable activity in wearing apparel at the south, while prospects for a large fall retail trade are bright everywhere. Already there is traffic congestion at several points, despite the fact that crops only have just begun to move, and railway earnings in August showed a gain of 10 per cent over last year, and 17.4 per cent over 1901. Unprofitably low prices have had the effect of curtailing production in the iron and steel industry. More machinery will be idle next week at the cotton mills, as the raw material is coming forward very slowly and available stocks are being held at prohibitive prices.

Failures this week in the United States are 191, against 176 last week, 238 the preceding week last year, and in Canada seven, against thirty-three last week, eight the preceding week and nineteen last year.

BODIES BADLY MANGLED.

Two Women Run Over By a Logging Train in Oregon.

Marshall, Ore., Sept. 4.—Mrs. Fannie Bickford and Mrs. E. O. Gibson were run over and instantly killed this morning by a logging train on the Daniels Creek Railway near King's camp. The women attempted to cross the road while the cars were moving slowly, when one missed her footing and in her fall grabbed the arm of the other, taking her down with her. Their bodies were badly mangled and there was not a sign of life when they were recovered. Their screams attracted the attention of a teamster, who was running the locomotive, and he applied the air, stopping the cars immediately. Mrs. Gibson's husband was engaged in the logging camp as a woodman.

PERSONALS.

Captain W. F. Colton, treasurer of the Utah Fish Commission, returned yesterday from a visit of several months in Europe. Midshipman S. A. Wallace of the Annapolis naval academy, returned home yesterday to spend his September vacation. He was accompanied by R. S. Irwin, another Utah cadet attending that school. Midshipman Wallace is the son of Manager H. J. Wallace of Auerbach's store, who resides at 54 West Second north street.

BEAUTIFUL WOMEN.

Pumpkin cheeks flushed with the soft glow of health, and a pure complexion make all women beautiful. Take a small dose of Herbine after each meal; it will prevent constipation and help digest what you have eaten. 66c. Mrs. William M. Strong, Midlothian, Tex., writes, May 21, 1901: "We have used Herbine in our family for eight years, and found it the best medicine we ever used for constipation, bilious fever and malaria." WAS TIRED OF LIFE

Girl Makes Two Unsuccessful Attempts to Drown Herself—Condition Critical.

Park City, Sept. 4.—One of the girls of the Deer Valley row made two unsuccessful attempts to drown this morning by jumping into a pond. The girl had acquired too much liquor and threw herself into the water, but was soon taken up by some of her companions. Later, she returned and did the same thing, and but for some men being near, who took her out, she might have been successful. A doctor was summoned and made her as comfortable as possible, but she is still in a critical condition.

DEATH OF A PIONEER.

Helped to Build the First House of Worship in Utah.

Manti, Sept. 4.—Yesterday afternoon at 3:20 John Crawford, one of the old and respected residents of this city, passed away, after an illness of long duration. John Crawford was born in Wisconsin, Feb. 25, 1828. He was one of a family of four, and the son of John and Elizabeth (Brown) Crawford. When 14 years of age he came to America in the year 1842. In the fall, the voyage across the sea occupied six weeks. He landed at New Orleans, and on Christmas day of the same year, he journeyed up the Mississippi river, landing at Manti, where he spent the winter. In July of the following year he was employed by Kinkadee & Lytle as a laborer, being paid for his work in oken and hauling merchandise to Salt Lake City. He left Port Kennedy on the Miss. Aug. 2, the late A. O. Sprad of Provo being the captain, and arrived in Salt Lake City on the 28th day of September.

In the spring of 1851 he and Alexander C. Brown took a wagon and horse to make the adobe for the old Salt Lake tabernacle, the first church built in Utah, and constructed the grounds where the Assembly hall now stands. When the Walker was broke out he was called by Brigham Young to this city, his home, with a company of about thirty-five, to defend citizens and property. This was in the year 1852. In 1855 he was called to fulfill a mission to the Elk mountains to live among the Indians for the purpose of civilizing them.

In 1857 he, together with Harmon T. Christensen, N. Beach and Richard Hall, received a charter from Manti City to construct and maintain a toll road up City creek canyon. The following year a sawmill was built in the canyon and they would cut from 2,000 to 3,000 feet of lumber daily. During the construction of the temple here Mr. Crawford owned a lime kiln near the city and for several years furnished lime to the city. His business for many years has been that of farming, stock and stock raising. He has held civil and ecclesiastical offices at various times, and has always been counted among the highly respected residents of this city. Deceased was married to Cecelia Sharp April 4, 1853, with whom he reared eleven children. In the year 1856 he married a second wife, who now survives him. His first wife passing away a number of years ago. One of the sons of the deceased who is well known throughout the city is W. W. Moore, a druggist here. Funeral services will be held Sunday next at 2 p. m., according to arrangements at 2 p. m.

HEAVY LOSS BY FIRE.

(Special to The Herald.) Kayville, Sept. 4.—A haystack containing over 100 tons of hay and belonging to James Harvey, took fire tonight and is still burning. The loss cannot be estimated at present, but it is thought it will reach \$10,000 or more. The cause of the fire is not known, but it is thought that the fire was started by a spark from the engine. A large quantity of fire from cigarettes has also been advanced.

DEATH OF LITTLE CHILD.

Kayville, Sept. 4.—Donald, the 7-month old son of Mr. and Mrs. J. W. Thornley of Kayville, died this morning at 2 o'clock. Congestion of the brain was the cause.

MET DEATH AT PLAY

Careless Rider Runs Down Child While Playing in Street.

(Special to The Herald.) Bingham, Sept. 4.—The 7-year-old daughter of S. M. Tucker was almost fatally killed this afternoon about 4:30 o'clock by being run down by a horse and rider. The child was playing in the main street of the town. The man was immediately taken into custody. At the time of the accident the little girl was playing in the middle of the street. The horse was riding at a rapid pace. Before he realized the danger of the child, the fore leg of the horse struck the child, and she was thrown into the air, landing on her head. The horse was immediately stopped, and the rider was taken into custody. The child is now in a critical condition.
